# Swan Wax

Products - Cat 4 - Wax Gaskets, Cold Solders, and Lubricants

## DESCRIPTION

**Black Swan's Swan Wax is a 100% pure wax gasket for setting all floor outlet toilet bowls. The gasket forms a water tight, gas tight and odor tight seal. Fits 3" and 4" waste lines. Meets Federal Specification TT-P-1536A.**

## DIRECTIONS

1. **Be sure the wax ring is at room temperature (about 70°F). If wax ring is too cold a good seal may not be a made or the toilet bowl could crack while making the installation.**
2. **With the toilet bowl upside down on a protective pad or blanket, place the wax ring around the discharge opening. Press firmly to assure adhesion when the toilet is inverted.**
3. **Using Black Swan's Stainless or Stay Soft Putty make a putty ring about 1 inch high around the outside rim of the toilet. This will make a seal between the toilet rim and the floor.**
4. **Carefully set toilet down on bolts and twist bowl slightly to spread wax and putty to make a tight seal. Tighten bolts carefully to prevent breaking the bowl.**

## ACCESSORIES

**Black Swan also sells Swan Wax with closet bolts included in the package. Since closet bolts are necessary to make the installation, this is a nice package to offer the end user. Stock Number 4001 is Swan Wax with two ¼" X 2-1/4" brass bolts, two nuts, two washers, and two plastic stand-up washers. Stock Number 4002 is Swan Wax with two ¼" X 2-1/4" brass plated bolts, two nuts, two washers, and two plastic stand-up washers.**
