

Jumbo Swan Wax

Products - [Cat 4 - Wax Gaskets, Cold Solders, and Lubricants](#)

DESCRIPTION

Black Swan's Jumbo Swan Wax is a 100% pure wax gasket for setting all floor outlet toilet bowls. This ring contains 40% more wax than the regular **Swan Wax**. Ideal to use where the regular ring does not provide enough wax to make a good seal. The gasket forms a water tight, gas tight and odor tight seal. Fits 3" and 4" waste lines. Meets Federal Specification TT-P-1536A.

DIRECTIONS

1. Be sure the wax ring is at room temperature (about 70°F). If wax ring is too cold a good seal may not be a made or the toilet bowl could crack while making the installation.
2. With the toilet bowl upside down on a protective pad or blanket, place the wax ring around the discharge opening. Press firmly to assure adhesion when the toilet is inverted.
3. Using **Black Swan's Stainless** or **Stay Soft Putty** make a putty ring about 1 inch high around the outside rim of the toilet. This will make a seal between the toilet rim and the floor.
4. Carefully set toilet down on bolts and twist bowl slightly to spread wax and the putty to make a tight seal. Tighten bolts carefully to prevent breaking the bowl.
