MHY-66

POST HYDRANT

Specification: MIFAB Series MHY-66 ____ (specify length) non freeze post hydrant with exposed bronze head and 1 1/4", 1 1/2" or 2" (specify) male inlet connection. Hydrant assembly complete with one piece neoprene plunger, hardened bronze operating stem, 1" (25) galvanized steel casing, heavy duty bronze head casting with head nut assembly, 3/8" (9) diameter galvanized steel operating rod, decorative casing guard, tapped 1/8" (3) drain port in the bronze tailpiece, and an operating key.

Operation: Opening the hydrant will allow water to flow freely from the hose connection and seal the drain port to prevent water from being wasted. Closing the hydrant opens the drain port to allow existing water in the hydrant to drain to prevent freezing.

Features: The 1" (25) galvanized steel casing will prevent rust and deterioration in acidic ground areas. The head nut assembly can be removed for ready access to internal parts.

Function: Intended for installation in exterior deck areas, farms, golf courses, parks, recreation and landscaped areas to provide a ready supply of potable water. Suitable for connection to 1 1/4", 1 1/2" or 2" water supply.
